UCOREADY PLAST

CR-157

Ready Made Cement Plaster / Mortar

Advantages

- * High quality plaster
- * Economical and ready to use
- * Saves labour costs and time
- * Eliminates poor mix or useful for external and internal plastering
- * Allows water reduction compare to site mixes
- * Rapid placing, better finish
- * Reduces rebound loss
- * Increases yeild saves money

Product

UCOREADYPLAST is ready to use mortar needs only water addition

Composition

UCOREADYPLAST is a factory controlled mixture of OP cement well graded sands and special additives

Purpose

- To produce increased rates of production
- To save labour cost and time
- To eliminate poor minxing or error at site

Coverage

One 50 kg bag will cover -to mm² with recomanded thickness of 10 mm

Packing

50 kg woven sacks

Our Dealer :

Description

UCOREADYPLAST is a high quality ready to use mortar / plaster for all purpose consisting 53 grade OPC and well graded Sands with admixtures & Specialise additives to achieve following properties.

1. Economy

UCOREADYPLAST gives less rebound loss with greater bonding properties and good workability with excellen coverage rate . Thus reduces westage & increases coverage compare to site mixing.

2. Time Saving

UCOREADYPLAST enables increased rate of production with less westage which in turns saves time in construction work.

3. Quality Assurance

UCOREADYPLAST is made from grade OPC with high purified sand with perfect grading gives cosistent quality compare to sitemixed moratar. Thus eliminates poor quality plastering.

Where to use

- All type of plastering
- External , internal rendering
- wall plastering , Brick'gy mortar

Technical Data

Form----- Powder
Colour----- Grey
Composition----- OPC + Sand +
